Additional information

- Updates are dependent on agreeing funding

** All PRSB standards have a fixed review date (3 years) which means the standard will be reviewed and if appropriate updated, at least once every 3 years but they may be updated more often than this in situations such as a safety issue, external change impacting the validity of the standard or just a high volume of logged issues.

NHS England manage a standards directory detailing current and future standards and the associated requirements for providers and suppliers. See [here](#).
